

Apprenticeship & Craft Training Registration

2011-2012 school year

Right now is the time to enroll new and existing students for the fall semester of our craft training programs (registered apprentices must register for class to remain active). All of our classes are designed to fit the needs of both the student and employer by delivering classroom training that fits various levels of expertise for the worker. Your craft trainees will be in classrooms with our registered apprentices, and all classes meet the requirements for related classroom instruction for registered apprenticeship. All classes utilize hands-on training, using Contren Curricula.

Tuition & Information

Tuition payment payable to "The ABC Apprenticeship Trust Fund" must accompany all registration forms at least one week prior to the first class. Annual tuition is \$2,750 for Craft Trainees, \$2,850 for Registered Apprentices, and \$3,250 for non-members. Tuition includes text books and supplies. Correspondence/online training is \$1,200 and includes textbooks. Registration is binding for one semester's tuition unless canceled one week prior to the start of that semester.

Classes start September 12.

Classes Offered:

- Concrete
- Carpentry
- Electrical
- Electronic Systems Technician
- HVAC
- Masonry
- Painting
- Plumbing/Pipefitting
- Roofing
- Sheet Metal
